

LABORATORY FURNITURE

Leatherwood Plastics' laboratory furniture and cabinets are manufactured for use in chemical or hazardous fume environments, labs, and clean rooms. Some available materials of construction include:

- Polypropylene
- Fire Retardant Polypropylene
- Stainless Steel
- Transparent PVC
- Transparent Polycarbonate
- Static-dissipative PVC
- Tabletops of epoxy resin or laminates

Optional features available include:

- Chemical spill sumps
- Exhaust connections
- Sinks, faucets, and high-purity water sprayers
- Ionization bars and controls
- Nitrogen connections and sprayers
- Quartzware racks and storage
- Chemical-resistant hardware and doors

Laboratory furniture and cabinets can be designed and manufactured to customers' specific requirements or configurations.
