

D. I. WATER BLEND STATION

The D.I.W. Blend Station is a freestanding cabinet constructed of 1/2" white polypropylene, with a clear PVC door. This tool is designed to blend hot and cold D.I. water to a specific tool temperature. A 4 to 20ma signal controls blending.

An optional D.I. water heater may be added in sequence. The Blend Station can also include a mounting flange for wall mount if desired.

Overall dimensions: 48.75"W x 18"D x 64.75"H
