

# SPECIAL SERVICES

As a full service organization, we offer many labor-oriented services as well as a standard product line. Some examples are:

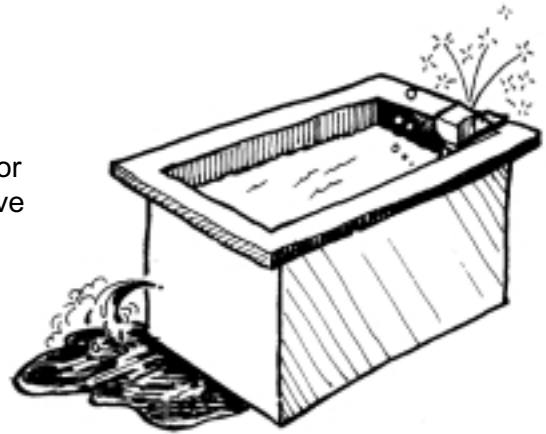

## Installation:

We offer installation of the equipment we sell, or of any other equipment. Relocating and re-installing existing equipment can also be done.

## Repairs:

Can usually be performed on-site, or in our shop. Repairing or modifying existing equipment can be an economical alternative to new equipment, when possible. We strive for quick response in emergency repair situations, to minimize down time, with maximum results.

## Maintenance:

Regular preventive maintenance and service can be performed on all types of processing equipment. This assures maximum production efficiency and increased equipment life.
